Executive Remarks:

We are delighted to announce these significant new orders, which further validate our expertise in delivering customized logistics solutions across various industries. These contracts encompass a diverse range of projects, including the transportation of over-dimensional transformers for a leading Japanese MNC, solar modules for prominent renewable energy companies, and critical road transportation services for giants like Jackson Generators, Huber Suhner and Kalpataru Projects International Ltd

Recently, we successfully completed two over-dimensional cargo (ODC) consignments well ahead of schedule, showcasing our expertise and commitment to excellence.

The Pune-to-Gadchiroli consignment, originally estimated at 45 days, was completed in just 26 days. Similarly, the Greater Noida-to-Panipat consignment, expected to take 30 days, was delivered in an impressive 18 days. This second project was particularly challenging, as other providers declined the task, proposing dismantling the equipment. PRL's innovative approach, extensive planning, and ability to secure necessary clearances allowed us to transport the cargo intact, safely, and efficiently.

These achievements reflect our unwavering dedication to delivering beyond expectations, using meticulous planning, advanced logistics solutions, and our team's unparalleled expertise. At PRL, no challenge is too great as we continue to set new benchmarks in the transportation and logistics industry.
